

THE SEVEN HILLS SCHOOL

September 21, 2011

Dear Parents of Eighth Graders:

Once again Seven Hills will be offering a standardized test preparation workshop for students in the 8th grade. The workshop (held at Seven Hills) is scheduled for Saturday, October 15th from 9:00 AM to 3:00 PM in Hunt Hall rooms 1 & 2. We invite all interested eighth graders to take advantage of this opportunity.

The workshop will be led by Marianne McBride, who has taught English and French at Seven Hills for 30 years and Jaime McCarthy, our math teacher. Jaime McCarthy is starting her second year at Seven Hills teaching 6th, 7th, and 8th grade math. Prior to bringing her teaching endeavors to Seven Hills, she spent three years refining a Pre-Algebra and Algebra curriculum in Massachusetts. She earned her BA in Communications from Boston College and a MA in Teaching from Simmons College. Marianne and Jaime will work with students on how to use the student guide book and better prepare for the test.

In the packet you will find a registration form for the workshop. The workshop will fill rapidly, so please return the registration with your check as soon as possible and no later than September 30th. Space is limited to the first 25 students.

Registration will be on a first come – first served basis and your check must be included with the form for your son/daughter to be registered for the class. No registrations will be accepted by phone.

Please don't hesitate to check with me if you have any questions.

Sincerely,

Scott Espinosa-Brown
Assistant Headmaster
